

Starting Monday, November 26th the school will be offering students the opportunity to purchase *Microsoft Office Professional Plus 2007* for the low price of \$85.00. (Currently, this version retails for about \$450.00.) EHS upgraded to this version in July 2007 and it includes: Word 2007, Excel 2007, Outlook 2007, PowerPoint 2007, Access 2007, Publisher 2007, InfoPath 2007, and Communicator 2007. The school is able to make this offer through our Academic Select Volume Licensing agreement with Microsoft.

Students 18 or older are eligible to purchase this application themselves. The software will be available in the Business Office from 8:00-4:00 on days that school is in session. Any of the Business Office personnel will be able to assist with this process. At the time of purchase students will need to:

- Have check for \$85.00 made out to EHS (billing to student accounts, cash, or credit cards will **not** be accepted)
- Show driver's license or proof that you are 18 or older
- Read and sign Student EULA

Students younger than 18, as per a requirement by Microsoft, are only eligible for this offer if their parent or legal guardian purchases it for them and signs the student EULA on their behalf. The software will be available in the Business Office for parents to purchase from 8:00-4:00 on days that school is in session. Any of the Business Office personnel will be able to assist with this process. At the time of purchase parents will need to:

- Have check for \$85.00 made out to EHS (billing to student accounts, cash, or credit cards will **not** be accepted)
- Read and sign Student EULA

*Note: These are single license copies and can only be installed on **one** computer. Also, since these licenses are strictly for our students, the number of copies available for purchase per family is equivalent to the number of students that the family has enrolled at EHS.

At this time, the school will start out with a limited number of copies. If it appears that the demand is high, we will order accordingly. Questions should be directed to the Business Office personnel.
