

# EPISCOPAL STUDENT ACCEPTABLE USE POLICY

Guidelines are provided below to make all Episcopal technology users aware of the responsibilities that they accept when they use Episcopal's technology resources. In general, what is required is efficient, ethical, and legal utilization of technology resources on the Episcopal campus - use that is respectful of the rights of all users in the Episcopal school community. The Honor Code and general school rules for behavior apply. A signature on the User Agreement Form indicates that the signed party has read the terms and conditions of use, understands their significance, and agrees to abide by the terms.

## Guidelines for Acceptable Use of Technology

1. **Appropriate Use of Technology Resources:** Episcopal provides innovative technology resources, including the Internet, to support the pursuit of educational excellence by its students. Within the school environment, these resources are to be used to conduct research, support classroom activities, and to engage in self-discovery activities that are consistent with the educational goals and mission of the school. Uses that might be acceptable on a user's private, personal account on another system may not be acceptable on this system because of its limited educational purpose.
